# WHAT'S HAPPENING

Can you believe we only have 2 months left of the academic year?? We are so happy to welcome in April! This month the two-year old classroom's theme is "Mother Earth," the three-year old classrooms are learning about Community Helpers and the four-year old classroom's theme is "Lifecycle of a Butterfly."

We also get to focus on Earth Day and learn how by each doing our part we can Invest In Our Planet. Which is this year's theme! The movement began in 1970 with a teach in around college campuses organized by Senator Gaylord Nelson, Pete McCloskey and activist Denis Hayes. Uniting Americans from all over the spectrum, it was a remarkable event that by the end of the year led to the creation of the United States Environmental Protection Agency as well as other groundbreaking environmental laws.

Check out [earthday.org](http://earthday.org) for ways that you and your family can get involved and raise awareness.

## LATE STARTS
